

## Have You Heard About the New School Financial Incentive for CTE Education?

### Students in Career-Focused Programs:

- ✓ Are more likely to graduate from high school
- ✓ Have higher GPAs
- ✓ Express interest in accelerated courses (AP, IB, Dual Enrollment)

**HB-1289 just passed as a means of expanding these programs.**

### Here's what it means for Your School:

- ✓ Creates a two-year pilot program for expanding CTE education
- ✓ Your school receives **\$1,000 in bonus funding** for each student who either:
  1. Earns an industry credential tied to an in-demand job
  2. Finishes a rigorous workplace training program tied to industry needs
  3. Completes a Computer Science AP course
- ✓ Incentives are based on in-demand jobs that pay high wages
- ✓ Incentives for Colorado schools will begin in 2017-18 school year
- ✓ After the pilot, state policymakers will evaluate impact with potential for renewal. **Help us unlock the full potential of this incentive and bolster your CTE programs.**

**To learn how you can unlock these funds, contact**  
**Colorado Succeeds / 1390 Lawrence Street #200 Denver 80204**
